

## **PUBLIC REALM WORKS FOR VENTNOR DURING 2008**

Notes taken following meeting between Susan Scoccia, Mayor, Rob Reed, Town Centre Manager and Steve Boswell, IWC Officer, Engineering Services on Friday, 9<sup>th</sup> May 2008

Works will be centred on Esplanade and Town Centre, but Ventnor Park will be included – expansion will occur if funds allow.

Works will include:-

- Railing painting
- Litter bins – intention will be rectangular on Esplanade and round in town
- White lines on roads
- Lampposts – repainted and/or replaced/repared
- Bollards – replaced with metal ones/or repainted
- Signs – removed if no longer required, replaced if rusty or damaged
- Street names renewal – repaint nice old ones
- Highway signs cleaned
- Shelters repainted if IWC's responsibility
- Repainting of toilets in Marlborough Road (only a small budget for this, but requested that Probation Service could be involved with outside)

Discussions took place regarding colours used in painting public realm. Confirmed that all bollards, bins, lampposts will be black and gold, and that railings will include cream.

Surveys started and works to start almost immediately. Lampposts/lighting, litter bins already started. As much as possible to be done before main summer holidays and rest before the end of the year.
